

## Top 10 Local Government Partners

The following list comprises the leading Top 10 Local Government Partners in the Green Power Partnership. These Partners have the largest completed annual green power purchases of all Partners within this sector. Their purchases help drive the development of new, domestic renewable energy sources. Combined, these organizations' purchases amount to over 280 million kilowatt hours (kWh) per year, which is equivalent to the electricity needed to power an estimated 26,000,000 average American homes annually.

This list is current as of June 26, 2006 and will be updated quarterly. The next update, scheduled for October 2006, will reflect information received from Partners by September 21, 2006.
